

Other Mobile App Features

- People
- User Profile
 - Edit profile information
 - Add picture
 - Update details
- Configure App Settings
- Add Comments on Content
 - Managing comments
- Logging Out of the App

In this section, we cover some additional features that you can use via the Yellowfin mobile app.

People

This section allows you to search for and connect with other users. Tap on the **People** option in the menu to bring up a list of users. You can filter this list and interact with it in the following ways:

Number	Description
1	Filter the list of users by choosing to view only users who are following or all users (All People).
2	Enter the name of a user to quickly search for them.
3	Tap on a user's name to view their profile.
4	Tap on the Follow/Following option to follow or unfollow a user. You will receive timeline alerts on activities of users whom you follow.

User Profile

The user profile displays information on the logged in user.

You will be able to see your profile data, and even edit certain details. Following data points are displayed on your profile:

- **Personal information** - this includes your name, job title, description and profile picture.
- **Following** - Number of users you are following. Tap on this number to view a list of who these are.
- **Followers** - The number of users who are following you. To see a list of who they are, tap on this number.
- **Stories** - Number of published stories written by you.
- **Discussion Streams** - The number of discussion streams that you follow.
- **Recent activity** - Recent events that you were involved in. Tap on the *View All Activity* link at the bottom for more activities. You will be redirected to your Timeline.

Edit profile information

Tap on the edit icon  in the top-right corner of the app to update your profile details, such as your picture, job title, and description. You will see the following screen.

Add picture

1. To add or change your profile picture, tap on the camera icon on the picture.

2. From the list of options, choose **Camera** to take a new picture from your phone camera to use as your profile, or,
3. Tap on **Photo Library** to navigate through your phone gallery and select a picture.
4. Tap cancel if you wish to return without changing or adding your picture.
5. You can also make other changes if you want to.
6. Tap Save.

Update details

Tap on your job title, and update it. Similarly tap on the description field and provide a description. Then tap Save to update these details.

Configure App Settings

The **Settings** feature lets you configure alternative settings for quick authentication when accessing the app. The options visible to the users depend on their phone type, as all the biometric features are not supported across older mobile models.

Tap on the **Settings** option in the menu to bring up quick signing in options.

Authentication methods include:

- **Set up PIN:** Enable this toggle to set up a 4 digit code to access the app on your device. You will be required to provide the code and save it.
- **Enable Fingerprint:** Access the app using you fingerprint. This is only possible if your phone supports fingerprint recognition technology. Ensure that you have saved your fingerprints on your phone prior to choosing this option.
- **Enable Face ID:** Use facial recognition to log into the app. Ensure that your device supports this technology and that you have saved your face ID on it prior to choosing this option.

After selecting an option, tap **Continue** to save it and continue using the app.

Add Comments on Content

One of the ways to collaborate on app content, is by adding comments. When you click on the comment icon below a content, you will be taken to its comment section, where you can also see comments made by other users.

1. To add a comment, tap on the text field at the bottom.

2. Then on the next page, type in your comment.
3. You can also tag other users by using the @ character.
4. You also have the option of adding the following:
 - a. Links: tap on the link icon  to include a link or URL. This will bring up a new page where you can provide the link and tap on Add.
 - b. Picture or video: tap on the camera icon  to take a picture or record a video on the camera and include it in your comment; or tap on the image icon  to add an existing picture or video from the gallery.
5. Once you are done writing your comment, tap on the icon in the top-right corner to add it.

6. You will be able to see your comment.

Managing comments

You can edit your comments, and delete your own or other users (if you have the correct permission). To do so, tap on the menu icon of a comment, to bring up options.

Logging Out of the App

To log out of the app, simply expand the menu and tap on the **Logout** option. A confirmation message will appear, click Logout to confirm and exit.
