Stories on Mobile

You can read and interact with published Yellowfin Stories directly in the mobile app.

Accessing Stories

Stories are accessed in two ways:

- By tapping on the burger bun in the top-left corner, and then tapping **Stories** to access the Signals list.
- By tapping on a tile in your Timeline that contains a story.

Understanding the Stories list

The Stories list displays all available Stories in the form of thumbnails, with options for filtering, commenting, clapping, and marking Stories as favorites.

Number	Feature	Description

1	Filter	Use the time filter to change which stories to view in the list: • **Newest:** displays the latest published Stories. • **Recently Viewed:** displays recently viewed Stories. • **My Favorites:** displays your favorite Stories.
2	Story thumbnail	Tap on the thumbnail to open the story.
3	Author	Tap on the author's name to view their profile.
4	Favorite	Tap on the star ☆ to add the story to your favorites.
5	Comments	Tap on the speech bubble 💬 to add a comment to the story. This opens the story and navigates you to the comment section. You can also see the number of comments next to the icon.
6	Like	Tap on the like button ✋ to like the story. The indicator displays the total number of users who have liked a story.

Interacting with Stories

The Story page allows you to read the story, view story details and interact with other users.

Feature	Description

Author	Tap on the author's name to view their profile.
Read by	Tap the **Read by** button Read by [image: avatars] +3 to see which users have read the story.
Like	Tap on the like button [image: hand icon] to like the story. The indicator displays the total number of users who have liked a story.
Favorite	Tap on the star [image: star icon] to add the story to your favorites.
Comments	Tap on the speech bubble [image: speech bubble 5] to navigate to the comments page comment on the story. The indicator displays the total number of comments on a story.
Share	Tap on the share button [image: share icon] to share a story with other users or groups.
Collaborators	Displays the users who were collaborated on the story.
