## Overview

[top](#)

Type	Icon	When to Use
Pie		You want to show the relationship of parts to the whole. Use a pie chart to highlight proportions rather than actual values. If it is important to show actual values in the chart, avoid using the pie chart type.
3D Pie		Similar to the pie chart, but in three a dimensional form.
Multi Pie		Used to highlight individual component sizes in a system of multiple components.
Ring		Similar to the pie chart, but in a circular ring form.

## Chart Data Options

Option	Description
Colour	This is the category label for the X axis
Size	Typically a numeric value such as \$. An item that you want to measure on your Chart
