Radar

Overview

You want to compare data by integrating multiple axes into a single radial figure.

Chart Data Options

Option	Description
Radar	This is the category label for the axes.
Size	Typically a numeric value such as $. An item that you want to measure on your Chart

Radar Chart Tutorial

Summary

In order to set up a Radar Chart you will need:

1. Create a report with chart display
    a. Select a field to use as the **Radar**
    b. Select field(s) to use as the **Size**
2. Create your chart, selecting **Radar** as the type under the **Special Purpose** heading
3. Provide the **Radar** and **Size** options
4. Customise the Chart as required
5. Proceed to the **Output** step
6. **Save** your report
