Overview

[top](#)

This displays a list of content tags currently defined in the system. From here the administrator can add, edit, view usage, and delete tags. Content tags are used to group content into subjects outside of their Content Category storage locations to make for easy searching on the [Browse Page](#) and other search panels. Tags can be used by the following content:

1. Discussions
2. Reports
3. Dashboards
4. Storyboards
5. Images
6. Annotations

Navigate to **Administration > Admin Console > Content Tags** to access a list of available tags.

Content Tags

Tag	Usage
Athletes	x
Camp	x
Tutorial	x

Add

Add Tag

[top](#)

To create a new tag to apply to content, click on the **Add** button at the bottom of the Content Tags list. From here you will need to provide a text label for your tag, and **Save**.

Add Tag

Tag:

Sales

Save

Cancel

Edit Tag

[top](#)
To edit a tag, or view its content usage, click on the tag name in the Content Tags list.

Content Tags

Tag	Usage
Athletes	×
Camp	×
Tutorial	×

Add

From here you will be able to adjust the text of the tag, and see a content type breakdown of where the tag is used.

Edit Tag

Tag:

Athletes

This tag is being used in 0 discussions.

This tag is being used in 10 reports.

This tag is being used in 0 dashboards.

This tag is being used in 0 storyboards.

This tag is being used in 0 images.

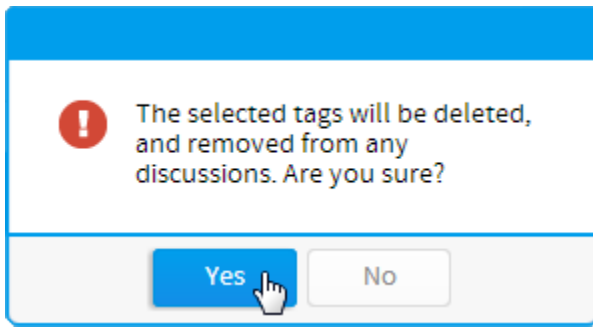

This tag is being used in 0 annotations.

Save

Cancel

Delete Tag

[top](#)
To delete a tag, click on the x icon at the end of the row in the Content Tags list. From here you will be prompted to confirm the deletion.

Note: deleting tags does not delete the content using the tag, just the grouping itself.
