As a user of Yellowfin you may have permissions to embed report content in external pages such as a wiki or blog.

1. To embed a report click the **Share** button on the active report menu. This will open the Share window from which you can select to either Distribute, Email, or Embed the report.

2. Click on the **Embed** option.

3. You can now select and copy the JavaScript provided, ready to be pasted into your external page.

4. Click the **Close** button to return to the report output. You will now need to paste the script into your external page and test it.

See [JavaScript API](#) for more information.
