

Analytical Charts

Overview

[top](#)

Scatter		Can be used with categorical, sequential or time-series data. Bubble size and location combine to effectively display 3-D data on a 2-D chart. Scatter charts can also be displayed in quadrants, allowing for negative X and Y values.
Treemap		Compares metric values via a size relationship. Can also be used to show hierarchical relationships.
Histogram		Shows the number of times a given value occurs in the dataset.
Box & Whisker		A chart which gives a quick overview of series of values and their statistical properties.
Trellis		A segmented chart for which the behaviour is determined by the data selected.
Heat Grid		Plots the intensity of a metric across multiple categories.
