

Accessing your Yellowfin Data

In this section we will learn how to access our Yellowfin data through the Android app.

Here's how you can mark a report as a favourite item to make it appear in the *Favourite* panel:

1. Click on a report to access it. (Note: To learn more about the features of this screen, click [here](#).)
2. Tap on the plus icon in the bottom-left corner; a range of other options will appear.

3. Now tap on the star button here to favourite this report.

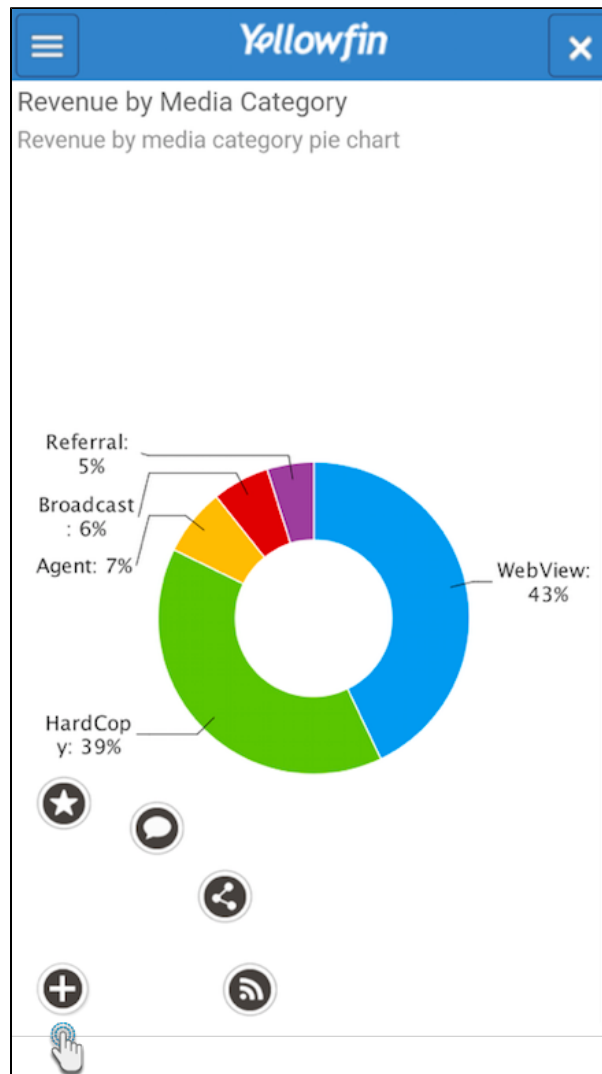

4. Once favourited, this button will turn blue  and the report will be added to the Favourite grid on the home screen.

 Tapping on a blue star button will unfavourite that report.

Share a report with other Yellowfin users:

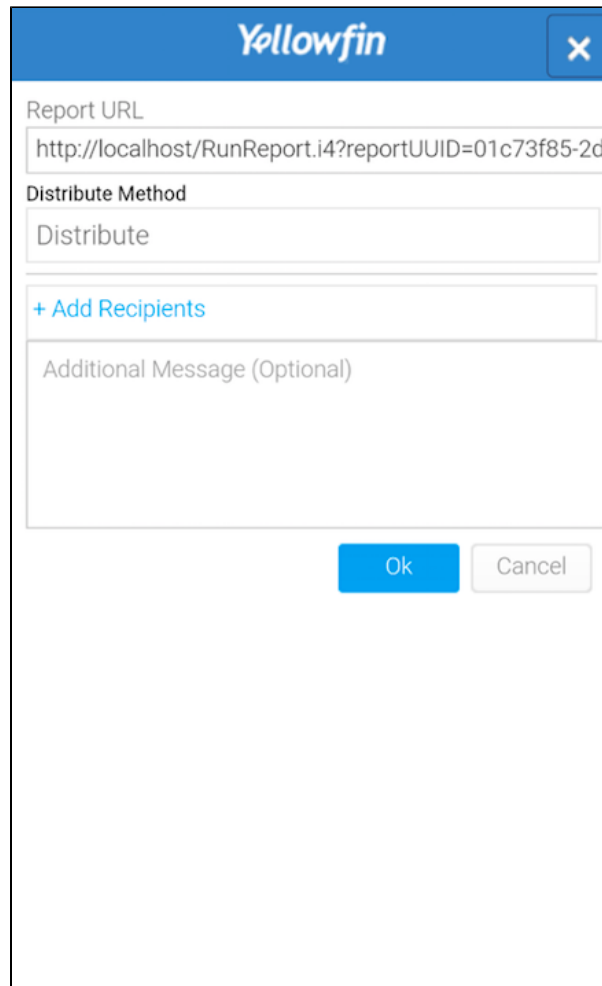

1. Click on a report to access it.
2. Tap on the plus icon in the bottom-left corner; a range of other options will appear.

3. Now tap on the share button to add a share this report with other users.

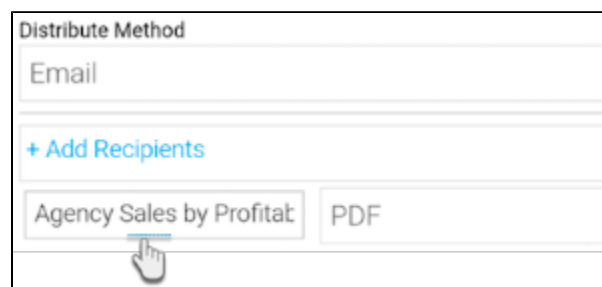

4. The following screen will appear.

A dialog box titled "Yellowfin" with a close button (X) in the top right corner. The dialog contains the following fields and controls:

- Report URL:** A text field containing the URL `http://localhost/RunReport.i4?reportUUID=01c73f85-2d`.
- Distribute Method:** A dropdown menu currently showing "Distribute".
- + Add Recipients:** A blue link to add recipients.
- Additional Message (Optional):** A large text area for an optional message.
- Buttons:** "Ok" (blue) and "Cancel" (grey) buttons at the bottom right.

5. Tap on Distribute to choose a distribution method.
- If you selected Email, follow these additional steps:
 - Enter a subject for the email.

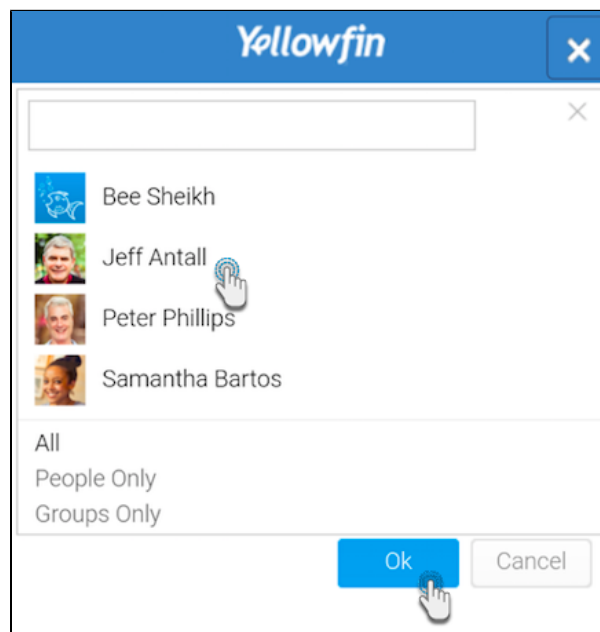

A dialog box titled "Distribute Method" showing the "Email" method selected. It includes the following elements:

- Distribute Method:** A dropdown menu showing "Email".
- + Add Recipients:** A blue link.
- Subject Line:** A text field containing "Agency Sales by Profitat".
- Attachment Type:** A dropdown menu showing "PDF".
- Hand Icon:** A hand cursor icon pointing at the subject line field.

- Tap on the HTML option to choose how to attach the report to the email.

HTML	<input checked="" type="radio"/>
PDF	<input type="radio"/>
DOCX	<input type="radio"/>
XLSX	<input type="radio"/>
Link To Report	<input type="radio"/>

6. Next, click on the Add Recipients link to add users with whom you wish to share this report.
7. Then select individual Yellowfin users or groups and tap on Ok.

8. Returning back to the share screen, you can even include a message to share with the recipients.
9. Finally, tap on Ok.

You can schedule your reports to be broadcasted to selected users at a pre-defined time, as frequently as required.

1. Click on a report to access it.
2. Tap on the plus icon in the bottom-left corner; a range of other options will appear.

3. Now tap on the broadcast button.

4. The following screen will appear.

The screenshot shows the Yellowfin mobile app interface. At the top is a blue header with the 'Yellowfin' logo and a close button (X). Below the header are two tabs: 'Revenue by Media Ca' and 'HTML'. A large empty text area is below the tabs. Further down, there are two more tabs: 'Weekly' and 'Saturday'. Below these is a checkbox labeled 'Advanced'. At the bottom right, there are two buttons: 'Save' (blue) and 'Cancel' (grey).

5. Tap on the first text field to change the subject of this broadcast.

This screenshot is similar to the previous one, but a hand icon is pointing to the 'Revenue by Media Ca' tab, indicating the user should tap on it to change the subject of the broadcast.

6. Choose how to attach the report to the broadcast message by tapping on the HTML option and making a selection.

7. Enter a message that will be broadcasted with the report.

This screenshot shows the 'HTML' tab selected. The text area below the tabs now contains the text 'Weekly status on the marketing report'. A hand icon is pointing to the text area, indicating where to enter the message.

8. Schedule the frequency with which to repeat this broadcast. (E.g: If the broadcast is set to be sent weekly, then select a week day.)

Weekly
Monday

9. You can also set up advanced scheduling options. First, select the Advanced checkbox; a range of new fields will appear.

<input checked="" type="checkbox"/> Advanced	
Time Zone:	Australia
	Sydney
Local Run Time:	11 am
	:00

- Choose a time zone for the broadcast schedule.
- Select the time at which to broadcast the report.

10. Tap on Save to schedule the broadcast.

11. Note: You will notice that the broadcast icon in the report options will have turned blue.

You can view and manage report comments.

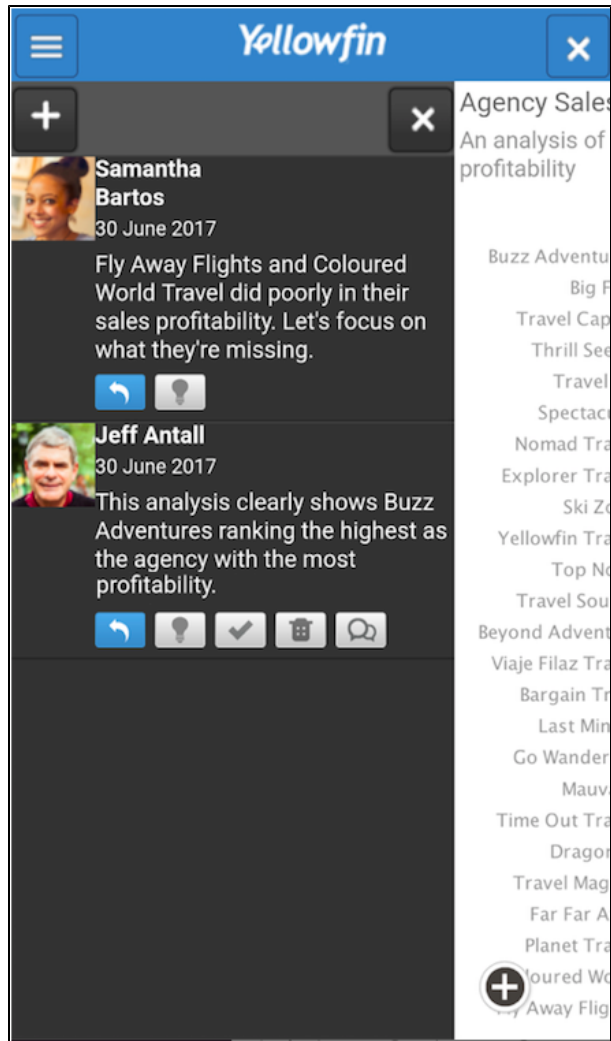

1. Click on a report to access it.
2. Access the report menu on the left side.

3. Choose the Comments option.

4. All the report comments will appear, provided there are any added.

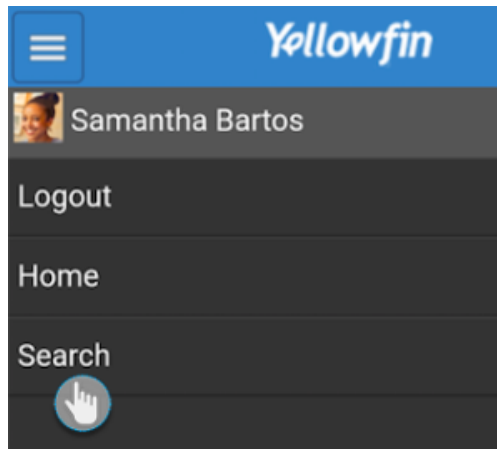

5. You can perform the following additional tasks on these comments:

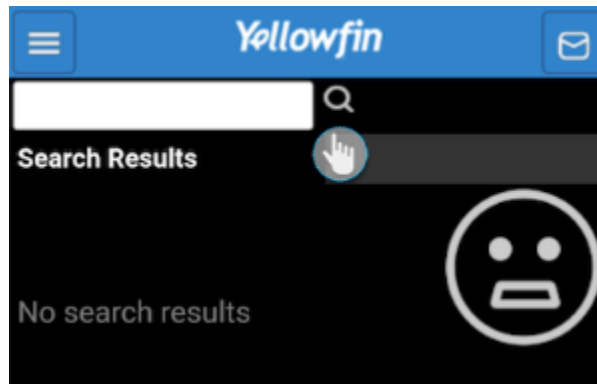

Icon	Feature	Description
	New comment	Tap on this button on the top-left side of the comments panel to add a new comment to the report.
	Reply	Use this button to add a reply to a comment.
	Insightful	Mark a comment as insightful by tapping on this button.
	Check	Tap on this button to check a comment.
	Delete	Use this to delete a comment.
	View replies	Use this button to view all the replies and responses made on a comment.
	Exit panel	Tap on this button on the top-right side of the comments panel to close it.

Search for reports and charts using the search functionality:

1. Click on the main menu on the home page.
2. From the list of options that appear, tap on Search.

3. Enter keywords of what to search for in the search bar and then tap on the search icon.

4. The search result would appear, as shown below.

[top](#)

You can access report filters, provided that they are added by the creator of the report through the Yellowfin platform.

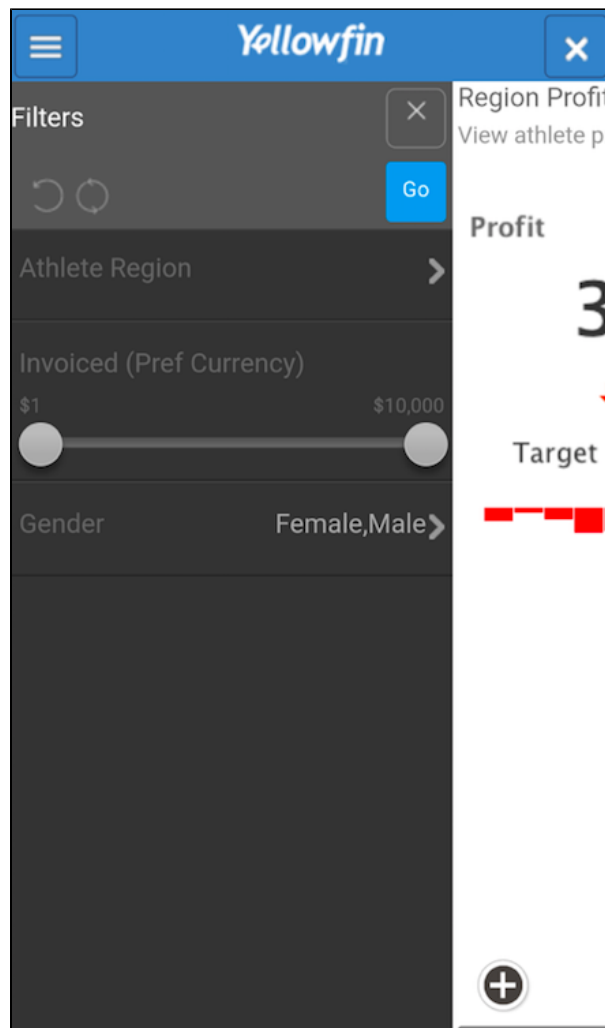

1. Open a report.
2. Tap on the report menu on the top-left side of the screen.
3. Select Filters from the expanded menu. (Note: This option will only appear if there are any filters included in this report.)

4. A panel with filters will appear, as shown in the example below.

These filters will differ according to what has been added to the filter field when the report was created in the Yellowfin platform.

5. You can start applying these filters to your report.
