- [Posting to a Timeline](#)
- [Viewing a Post's Thread](#)
- [Replying to a Post](#)

Overview

[top](#)

On the Timeline feed there are a range of different events displayed. To view a full list of events and scenarios, see the [Timeline Events](#) page.

While on a Timeline feed you will be able to:

1. View events relating to a user and content
2. Open content referred to in events
3. Post Comments, Updates, Opportunities, and Issues
4. View comment threads
5. Respond to comment threads

User Profile

[top](#)

The User Profile panel is displayed on the left of all the Timeline feed.

User Profile	Section	Description
	Profile Image	The user can upload an image of themselves to display here, to make identification easier.
	Full Name	This is the full name of the user, as defined in their settings.
	Job Title	The user can specify their job title in their settings.
	User Description	This area can be populated with a small blurb about the user. Defined in their settings, this is an optional field.
	Following	This displays the number of users someone is connected to and following in their timeline. This is not the number of users following this individual.
	Streams	This displays the number of discussions the user is involved in or following.
	Favorites	This displays the number of items specified as a favorite.

Filtering Timeline

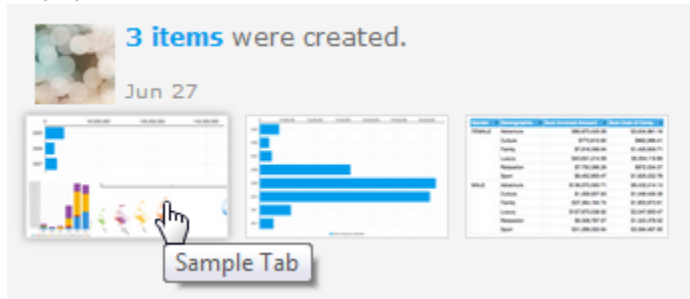

[top](#)

Option	Description
Search	This search allows the user to narrow down the events they see in their feed, in order to locate specific posts or pieces of content.
Post Type	This option allows the users to specify which type of posts they see in their feed, from; <ul style="list-style-type: none"> Tasks Discussion Streams Proposals Decisions
Priority	This option allows the user to specify the items they see based on the priority assigned to them: <ul style="list-style-type: none"> All Low Medium High
Status	This option allows the user to specify the items they see based on their current status: <ul style="list-style-type: none"> All Assigned In Progress / Discussion Stream Review / Proposal Complete Rejected
Favourite Flag	This option allows the user to restrict the items they are seeing just to ones they have marked as favourite or "flagged".
Reset	This option allows the user to clear all the above items, resetting their timeline feed to show everything.
Layout	This option allows the user to specify which layout they look at on the page. They will be on the Timeline layout to see their event feed.
Connections	This option opens the Connections panel on the right of the screen, allowing the user to explore people they are connected to in the system and to establish new connections.

Opening Content

[top](#)

While viewing events in the Timeline feed, you will be able to open pieces of content listed. Simply click on a content thumbnail to open outside of the Timeline.

More information coming soon...

Posting to a Timeline

[top](#)

The Timeline feed allows you to post comments or updates on a user's timeline, much like the way you would post in a discussion group. You will always be able to post to your own feed, and you will be able to post to a user's feed you have connected to. To post to a user's feed that you aren't connected to their timeline will need to be defined as **Public** in their [user settings](#).
