### Overview

#### Creating a Report#top

Having created our view we are now ready to create reports using the Report Writer. When creating a new report you will have begin with an initialisation step. The step is required for you to select the source system and the view you wish to access, as well as the type of builder you wish to use.

### Create

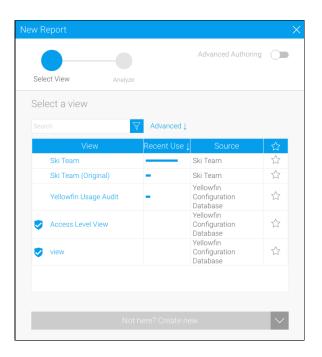

#### Creating a Report#top

This section walks you through starting the report building process, including selecting the type of builder, and the view.

1. Start the Report creation process by Left Side Nav Top Right Toolbar using one of these methods: (with Left Side Navigation enabled) • Left Side Nav - open the left side navigation panel, Dashboard Create Browse Administration click on Create, select the + Report option Report Ф Report d Report Report 5 Dashboard Tab • Top Right Button -KPI Dashboard View Dashboard Tab click on the create View Data Source button, select the Rep Data Source Storyboard Storyboard ort option. Storyboard Discussion Discussion Discussion Task View • Toolbar - click on the Create link in the Data Source toolbar, select the Report option. Task

You will now see the **New Report** lightb ox.

2. Click on the **Ski Team** view in order to use the fields defined within it for creating the report.

### Data

### Creating a Report#top

This will walk you through building a basic report.

1. You will now be on the **Data** step of the builder, where you will define the fields used in your report, format them, and define any filters, sections and other advanced options for your report.

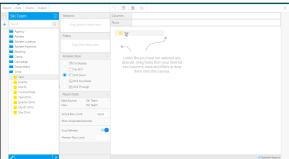

m		-		Columns	
ttt	Ski Team	0	Sections		
÷				Rows	
	agency				
	Athlete Athlete Location Athlete Payment Booking	Filma	<u>∧</u>		
				4

	E Carryolgn Parameters Time		Co-Oisplay     No Drill     So Drill Down     So Drill Anywhere     So Drill Anywhere     So Drill Through	data yet, chiqi felak tomyoyu feli fa no cuturne, ad films o ting tima anta tina cumas.	
			Report Data		
			Data Source: Ski Team View: Ski Team		
			Active Row Limit: 10000		
			Show Duplicate Records		
			Auto Refresh:		
			Preview Ross Limit:		
	1	+			C Refresh Re

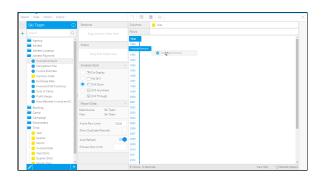

2. On the left you will see a list of folders, expand the **Time** folder in order to access time related fields.

3. Drag and drop the **Year** field into the preview area, as pictured here.

You could also drag it directly into the **C** olumn or **Rows** list if you prefer. Dragging into the Columns list creates a Year column that goes down the page, where the Rows creates a Year row that goes across the page.

4. Expand the Athlete Payment categor y and drag the Invoiced Amount field next to the Year field in either the Colu mns or Preview area.

.....

5. Expand the Athlete category and drag the Athlete ID field between the Y ear and Sum Invoiced Amount fields.

6. Click on the drop down menu on the **Athlete ID** field and set the **Aggregation** to **Count Distinct**.

### Charts

### Creating a Report#top

1. Click on the **Charts** link in the main navigation bar in order to progress to the **Chart Builder** step.

You will now have a list of fields on the left side of the builder that are available from the table you defined on the Data s tep.

 New Data

 Image: Data Server Server

Charts

Design

2. Drag the Year field into the Horizont al Axis component of the Auto Chart builder.

3. Drag the **Invoiced** field into the **Verti** cal Axis component.

You will now have generated a line chart. In order to change the chart type manually, you will need to switch from the **Auto Chart** builder to a specific type.

4. Open the **Select Chart** panel on the right of the screen.

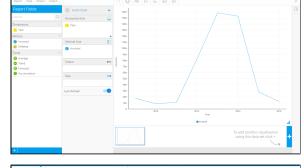

5. Locate the **Pie** section and choose a basic **Pie Chart**.

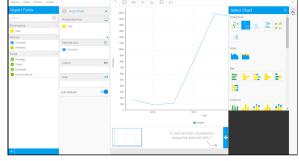

Your chart will now change to a Pie.

6. Click on the **Labels** formatting menu in the main navigation bar in order to enable some labelling.

7. Set the Labels display to **On** and select the **Category** and **Percentage** options.

8. Click **X** to close the menu and apply your label settings.

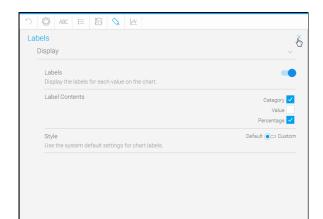

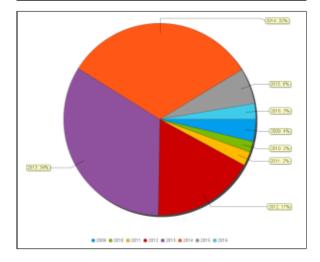

Report

Data

Your chart should now look like the one pictured here.

### Design

#### Creating a Report#top

1. Click on the **Design** link in the main navigation bar in order to progress to the report design step. Here you can apply formatting options and save the report.

2. Click on the **Publish** link, or the **Repo rt** link in the main navigation bar and select the **Save** option.

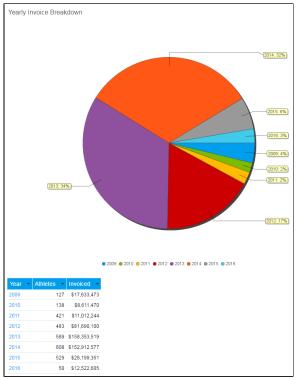

3. Define a Name and Description for the report, then provide Category and S ub Category options for storage.

4. Click on the **Save** button to save your report and activate it for consumer use.
