- [Delete a plugin](#)

Overview

[top](#)

This page is designed to allow you to install and manage a range of plugins within your Yellowfin instance. The types of plugin available through this page include;

- Custom code widgets
- Data transformation
- Source platform drivers
- Advanced functions
- Third Party connectors
- Data type converters
- Data profilers
- Custom formatters

Add a plugin

[top](#)

In order to add a plugin you will first need to create or obtain one - you can find a selection on Yellowfin's Marketplace. Once you have a plugin to install, follow these steps:

1. Access the **Plugin Management** page within the **Admin Console**.

2. From here, click on the **Add** button at the bottom of the existing plugins list.

Name	Description	Type
<input type="checkbox"/> Youtube	Youtube Third Party Connector	PLUGIN
<input type="checkbox"/> Google Analytics	Google Analytics Third Party Connector	PLUGIN
<input type="checkbox"/> Google Sheets	Google Sheets Third Party Connector	PLUGIN
<input type="checkbox"/> Twitter	Twitter Third Party Connector	PLUGIN
Select All / Deselect All		<input type="button" value="Add"/> <input type="button" value="Delete"/>

3. On the **New Plugin** lightbox, drag and drop your plugin file. This should either be a `.jar` or `.zip` type.

4. Provide a **Name** and **Description** for the plugin, which will help users understand what its intended purpose is. This will not be the label of the plugin outside of the **Plugin Management** page.

New Plugin

Name

Description

Drag a Plugin file here (.jar/.yfp)

Cancel

5. Once Yellowfin has finished processing your file, click **Submit**.

New Plugin

Byte Count Formatter

Custom Formatter

bytecountformatter.jar

×

+ Add more

Submit

6. You will now see your newest plugin in the list.

Name	Description	Type
<input type="checkbox"/> Youtube	Youtube Third Party Connector	PLUGIN
<input type="checkbox"/> Byte Count Formatter	Custom Formatter	PLUGIN
<div> bytecountformatter.jar com.hof.mtc.custom.format.ByteCountFormatter (Custom Formatter) <div> <div>Edit</div> <div>Delete</div> </div> </div>		
<input type="checkbox"/> Google Analytics	Google Analytics Third Party Connector	PLUGIN
<input type="checkbox"/> Google Sheets	Google Sheets Third Party Connector	PLUGIN
<input type="checkbox"/> Twitter	Twitter Third Party Connector	PLUGIN
<div> <div>Select All / Deselect All</div> <div> <div>Add</div> <div>Cancel</div> </div> </div>		

Edit a plugin

Editing a plugin can mean either adjusting the name and description, or updating the plugin file(s).

1. Click on the plugin in the list and select the **Edit** link.

	Name	Description	Type
<input type="checkbox"/>	Youtube	Youtube Third Party Connector	PLUGIN
<input type="checkbox"/>	Byte Count Formatter	Custom Formatter	PLUGIN
bytecountformatter.jar com.hof.mh.custom.format.ByteCountFormatter (Custom Formatter)			
			Edit Delete
<input type="checkbox"/>	Google Analytics	Google Analytics Third Party Connector	PLUGIN
<input type="checkbox"/>	Google Sheets	Google Sheets Third Party Connector	PLUGIN
<input type="checkbox"/>	Twitter	Twitter Third Party Connector	PLUGIN

2. Click on the **Remove** button next to a component of the plugin in order to remove it.

3. Click on the **+ Add more** link in order to load new files as part of the plugin.

4. Click **Submit** to complete the edit.

Delete a plugin

[top](#)

In order to delete a plugin, or multiple, follow one of these options:

1. Click on the name of a single plugin and select the **Delete** link.

OR

2. Check the box next to one or more plugins to remove and click the **Delete** button.

	Name	Description	Type
<input type="checkbox"/>	Youtube	Youtube Third Party Connector	PLUGIN
<input type="checkbox"/>	Byte Count Formatter	Custom Formatter	PLUGIN
bytecountformatter.jar com.hof.mh.custom.format.ByteCountFormatter (Custom Formatter)			
			Edit Delete
<input type="checkbox"/>	Google Analytics	Google Analytics Third Party Connector	PLUGIN
<input type="checkbox"/>	Google Sheets	Google Sheets Third Party Connector	PLUGIN
<input type="checkbox"/>	Twitter	Twitter Third Party Connector	PLUGIN
Select All / Deselect All			Add Delete
