Overview

[top](#)

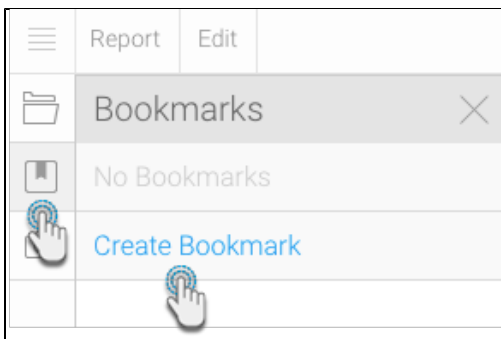

This allows you to save the drill paths and filter values you have currently applied to the report in order to reapply them to fresh data at a later date.

Creating a Bookmark

[top](#)

In order to save a Bookmark of your report, in its current filtered and drilled state:

1. Click on the **Bookmarks** button on the left side of the Report Builder.
2. Select the **Create Bookmark** option from the expanded panel.

3. Fill in the details required in the Create Bookmark pop up.

Create Bookmark [X]

A bookmark saves your currently applied filter and drill down settings. It allows you to easily jump back to this point in the report.

Name

Description

Public + [Add people to make private](#)

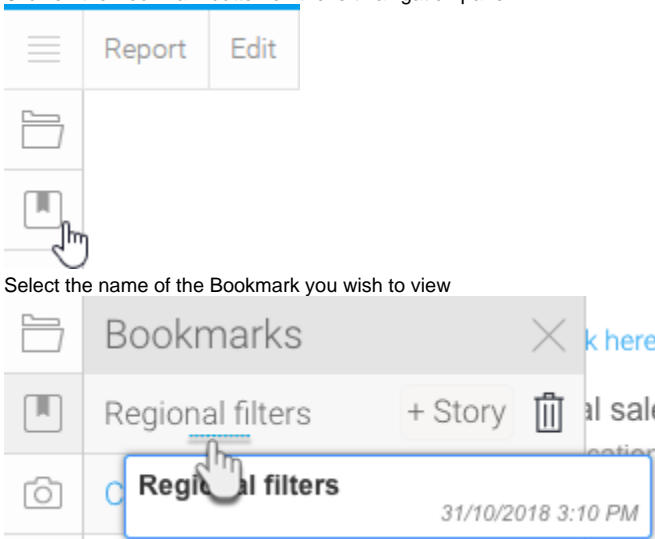

- a. **Name:** provide a name for your bookmark.
 - b. **Description:** provide a description of your bookmark.
 - Note:** We recommend you describe the report so users understand what filters have been applied.
 - c. **Security:** initially the bookmark will be Public (open to anyone that has access to the folder and sub folder the report is stored in), to secure the bookmark simply select users or groups that should have access.
4. Click **Ok** to save the bookmark.
