Current Filter Values

Always Send

Weekly

Saturday

Task will run every week, on Saturday

☐ Advanced

Save Cancel

File Name & Type

[top](#)

1. Select the format you wish the report to be sent as, from the list of; HTML, PDF, CSV, DOC, XLS, RTF, and TXT.
2. Provide a file name (no file extension required, just the name, eg. SampleReport)
3. Tick the **Attach Broadcast Date** if you wish this to be included in the file name

CampRegionRevenue PDF

☐ Attach Broadcast Date

FTP Details

[top](#)

The following details are required to send a report via FTP:

Server Address	This is the address in which the server you are uploading the report to sits
Server Directory	This is the directory where you want the report to be sent to on the server.
User Name	This is the username of the server you are trying to access.
Password	This is the password of the server you are trying to access.

Default Filter Values

Delivery Rule

[top](#)

A Delivery Rule is used for exception reporting. If you wish to send a report only if it meets certain criteria (for example: Revenue is less than 100,000) then you will need to add a rule.

1. Change the **Always Send** drop down list to **Only if Delivery Rule met**
2. Click on the **Click here to add rule** link
3. You will now have the choice of building a rule based on:
 - a. If one or more rows match the rule (e.g. is there a transaction less than \$1000) OR
 - b. If the totals for the report match the rule (e.g. are the total sales less than \$100000)
4. Select the field you wish to apply the condition on, click **Add**, and apply your condition. Click **Update** to save it. You can add multiple conditions here if required.
5. Click **Save & Close** to apply your condition(s)
6. Your rule will now be displayed on the FTP Schedule window

Only if Delivery Rule met

Invoiced Less than \$500,000

Edit

Schedule

[top](#)

The last step is to define the schedule for your Broadcast

1. Select the frequency.
Depending on the option selected here, you may be required to provide further details. For example, if Fortnightly is selected, you will be prompted to select either the first or second week of the fortnight to send in, as well as the day of the week.
2. Apply Advanced Settings (if required)
Sometimes you may find you need to set the Time Zone, and local time for delivery. This can be accomplished by selecting the **Advanced** check box and defining the time.

Monthly

Task will run every month, on the 1st day of the month

Day:

☒ Advanced

Time Zone:

Australia

Sydney

5 pm

:30

Local Run Time:

:30

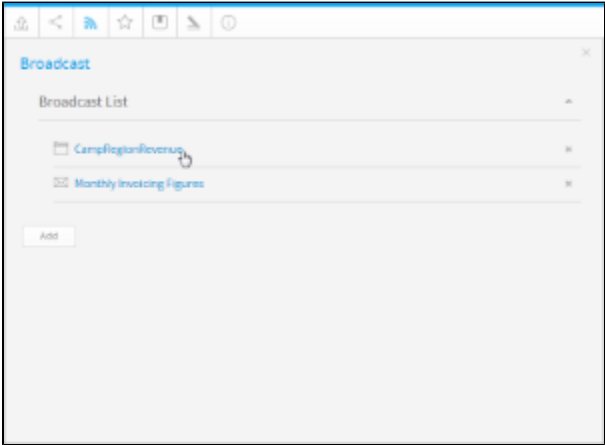

Save

[top](#)

Click on the Save button to complete the Broadcast set up.

Save

You will now be able to view your schedule through the main menu.
