Other Mobile App Features

This page covers additional features on the Yellowfin mobile app.

People

This section allows you to search for, and connect with other users. Tap on the **People** option in the menu to bring up a list of users. You can filter this list and interact with it in the following ways:

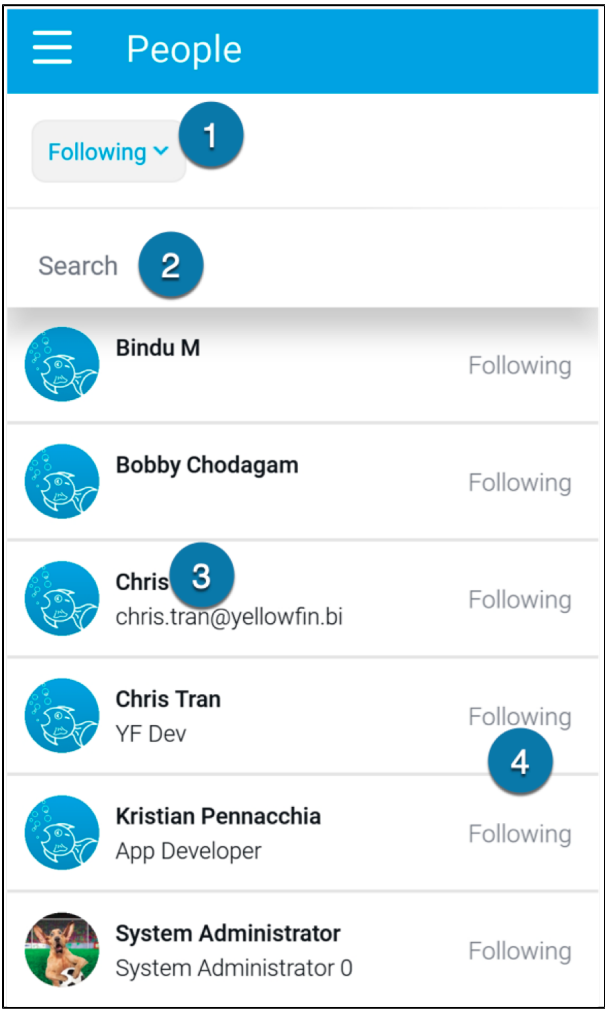

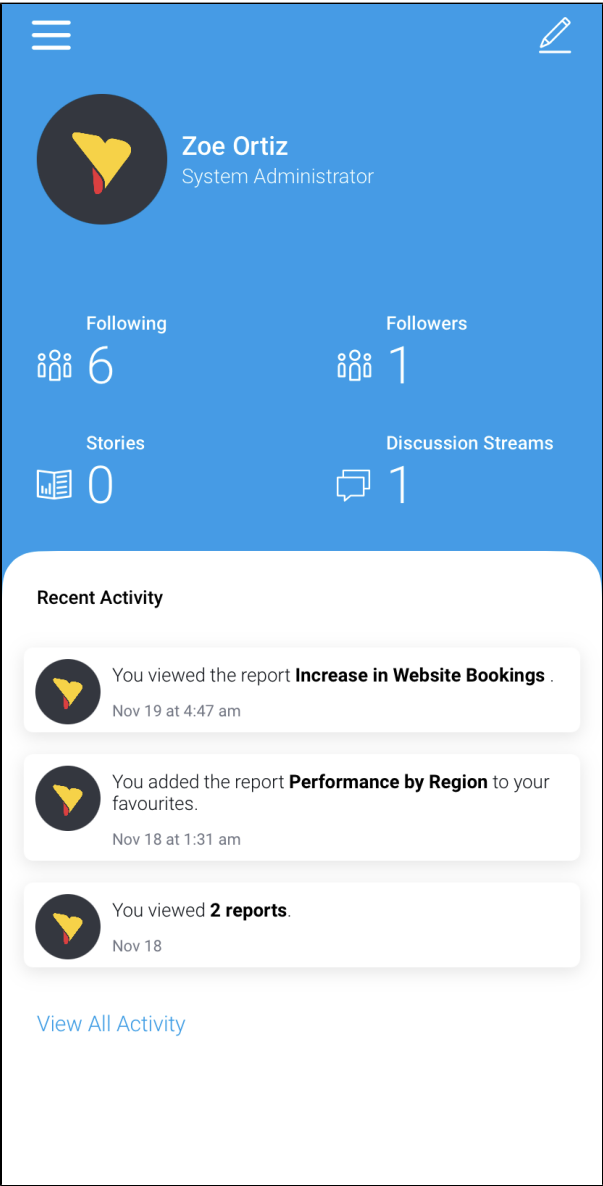

Number	Feature	Description
1	**Filter button**	Tap the filter to change which users to view in the list: • **Following:** the users you follow. • **All People:** all users on your instance of Yellowfin.
2	**Search bar**	Tap the search bar to type the name of a user to quickly search for them.
3	**User list**	Tap on a user's name to view their profile.

| 4	Follow button	Tap on the **Follow**/**Following** option to follow or unfollow a user. You will receive timeline alerts on activities of users whom you follow.

User Profile

The user profile displays your information and allows you to edit certain details. The following data points are displayed on your profile:

Feature	Description
Personal information	Displays your name, job title, description and profile picture.
Following	Displays the number of users you follow. Tap to display these users in a list.
Followers	Displays the number of users following you. Tap to display these users in a list.
Stories	Displays the number of published Stories written by you.
Discussion Streams	Displays the number of Discussion Streams you follow.
Recent Activity	Displays your recent events. Tap on **View All Activity** to display your Timeline.

## Editing your profile information

1. Tap on the edit button in the top-right corner of the screen to update your profile details, such as your profile picture, job title, and description.
   The **Edit Profile** page will be displayed
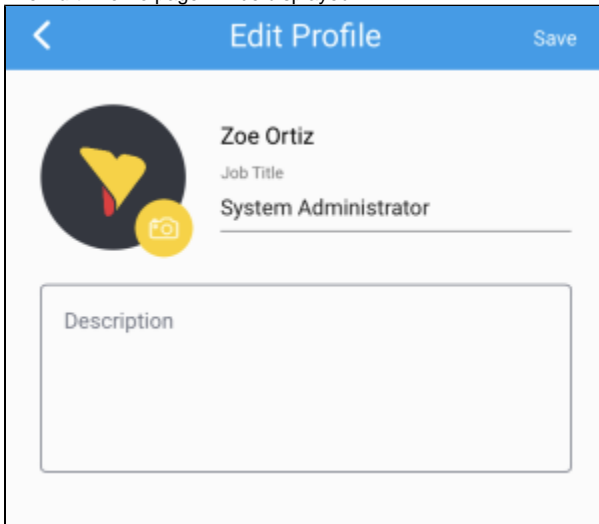

2. Tap on **Job Title** field to type your job title
3. Tap on the **Description** field to type a description of yourself for your profile
4. Tap **Save** to save any changes and return to your profile

Adding or changing a profile picture

1. To add or change your profile picture, tap on the camera button
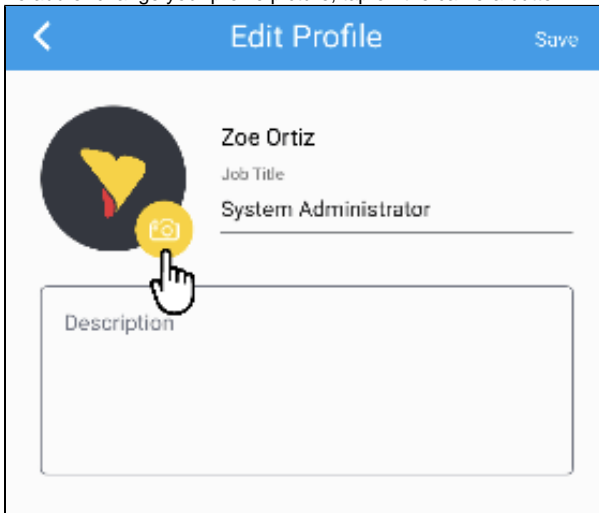

2. Tap **Camera** to take a new picture from your phone camera to use as your profile
    You can also select a photo from your mobile device's photo library by tapping **Photo Library**
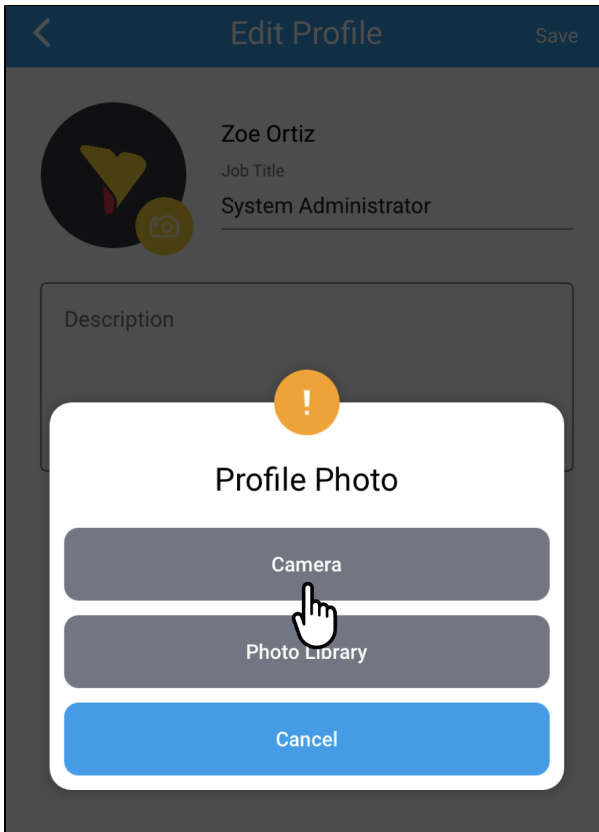

3. Tap cancel at any time to return to your profile without changing or adding a photo
4. Tap **Save** to save any changes and return to your profile

Configuring App Settings

The **Settings** page offers the following quick authentication options for accessing the app:

| Option	Description
Set up PIN	Tap on the toggle to set up a 4 digit code access code for the Yellowfin mobile app.
Enable Fingerprint	Access the app using you fingerprint. This is only possible if your phone supports fingerprint recognition technology. Ensure that you have saved your fingerprints on your phone prior to choosing this option.
Enable Face ID	Use facial recognition to log into the app. Ensure that your device supports this technology and that you have saved your face ID on it prior to choosing this option.

✓ The options visible to the users depend on their phone type, as some biometric features are not supported across older mobile models.

Configuring a quick authentication method

To configure a quick authentication method:

1. Tap the burger bun ☰ in the top-left corner to access the menu

2. Tap on the **Settings** option at the bottom of the menu to bring up quick signing in options.

3. After selecting an option, tap **Continue** to save
