Overview

[top](#)
Yellowfin allows users to create dashboard tabs. Administrators may need to manage the tabs contained in a system, viewing usage information, editing, and deleting them.

To access the Dashboard Management list go to **Administration > Admin Console > Dashboard Management**.

Tab Information

[top](#)
The schedule list allows you to search, view, edit, pause, run, and delete scheduled tasks.

Dashboard	Reports	Subscriptions	Status	Access
Analysis	12	1	✓

Users

When editing or deleting tabs from a system it's important to understand which users these changes may effect. While viewing information on a tab, click the **Show Users** option to view the names of users who currently have the tab displayed on their dashboard.
