# Manage Client Organisations

Overview

top

Allows you to add, edit, and delete client organisations without the use of web services. This panel is only displayed when you have Client Organisation Functionality enabled in the Configuration panel.

Access Client Organisation Management through the Admin list in the Admin Console.

See *Client Organisations* for more information.

Client Organisations

Using Yellowfin you can create Client Organisations. These are used to manage multiple clients within the one instance of Yellowfin.

Create New Client

Create new Client Organisations and assign users to them.
