

# Creating Content

## Overview

[top](#)

Once you know your way around the system you will need to learn how to create various types of content. Work through the following basic tutorials to learn how to build each type of content.

	Step		Description
1.	<a href="#">Source Connection</a>		Learn how to set up a Connection to a source database.
2.	<a href="#">View</a>		Learn how to create a basic Drag & Drop View.
3.	<a href="#">Report</a>		Learn how to create a basic Column Report with a Chart.
4.	<a href="#">Dashboard Tab</a>		Learn how to set up a basic Standard Tab.
5.	<a href="#">Storyboard</a>		Learn how to create a Storyboard.
6.	<a href="#">Discussion Streams</a>		Learn how to create a Discussion Stream.
